[Download ProCS™ Version v0.xx.x \(ex\\_\)](#)

Product Configuration Software (ProCS™) is available to enable the installer to configure all the necessary level settings and options into the JAC audio device. This intuitive, user-friendly software walks the installer through a logical series of steps so that every aspect of the configuration is covered.

**CAUTION:** To ensure correct configuration, check the on-line Installation and Operating Manual for full instructions before installing or using the program.

- From the JAC website [www.jupiteravionics.com](http://www.jupiteravionics.com) locate Products>Software>ProCS 
- Two file versions are available:  
[Download ProCS™ Version v0.xx.x \(exe\)](#)  
[Download ProCS™ Version v0.xx.x \(ex\\_\)](#)
- Click on [Download ProCS™ Version v0.xx.x \(exe\)](#) and run or save file.
- If firewall prevents download of .exe file, click on [Download ProCS™ Version v0.xx.x \(ex\\_\)](#), save file and then change file extension to '.exe'.
- Double-click on saved file to open file. Select 'Run anyway' (or similar) if prompted by computer protection.
- Follow the 'ProCS Setup Wizard' to install ProCS™ on your PC or laptop.
