

JA39-022

PELTOR™ Headset Adapter - 230 Ohm Mic - 230 Ohm Phones Data Sheet

JA39-022

The JA39-022, PELTOR™ Headset Adapter allows a PELTOR™ MT7H79 series headset (230 Ohm Mic - 230 Ohm Phones) to be used with a regular aviation audio controller such as the Jupiter Avionics Corporation JA95-001. The JA39-022 operates using the Mic Bias supply of the audio controller and requires no other external power.

The JA39-022 unit features an industry standard U-174/U (TP-120) Plug and U-92A/U (TJT-120) Jack to allow plug and play operation.

The metalized plastic case construction allows the adapter to be used in high RF environments. It is particularly suitable for adapting 230 ohm headsets for use with the Jupiter wiJAC™ Wireless Aircraft Headset Adapter.

JA39-022 Specifications

Dimensions

Weight: 0.11 lb. 51.2 g Max

Environment and Performance

Operational Temperature	-40 °C to +50 °C
Humidity	95%
Altitude	25,000 ft. MAX
Shock	20g (any axis)
Input	230 Ohm Dynamic Mic and 150 Ohm Phones
Output	Equivalent to 150 Ohm Amplified Dynamic Mic and 230 Ohms Phones
Case Material	Metalized Plastic
