

JA71-HJ45 Headset Jack Mounting Plate

Data Sheet

Headset jacks not included

Description

The JA71-HJ45 is a Dzus mount front panel designed to accommodate up to four helicopter headset jacks (TJT-120)

Machined from 6161T6 aluminium and finished with scratch resistant urethane paint, this plate is available in either black (FED-STD-37038) or gray (FED-STD-36231).

This adapter allows installers to quickly mount mixed avionics resulting in a uniform, professional appearance.
